Subject: FW: Policy Options for Initial Class III FA for Dewey Burdock

DInnocenzo, Benjamin has shared a OneDrive for Business file with you. To view it, click the link below.

 Pre Final Class III Permit FR Demonstration Options.docx

Just an FYI update from Douglas on where we are with Dewey Burdock and the various options available to the operator in regards to FA.

Thanks!

Subject: Policy Options for Initial Class III FA for Dewey Burdock

Hi Valois and Ben: here is my initial cut for policy options on the resources needed from Powertech prior to issuance of the Class III permit at the end of August.

Please feel free to edit/comment this week and let me know if you would like to discuss further.

Ben: Valois and I have another call with Powertech and we will be confirming the number of Class III wells they expect to construct in their first year of operations for one or more wellfields. Based on this call, it's likely that this paper will need further revisions. The call is at 4:15 pm this Thursday and I can forward the invitation to you if you would like to be on the call with us?

Thanks!
